

NGUYEN VI PHUONG

Full-stack Developer

vyphuongit@gmail.com

SUMMARY

Full-stack Developer with 2 years of experience building production web apps with TypeScript, React, Next.js, Node.js, GraphQL, and PostgreSQL. Strong in booking flows, inventory sync, third-party integrations, and authentication. Experienced in building AI applications (RAG chatbot) and working daily with AI coding agents. Experienced with Japanese client projects and Agile teams.

WORK EXPERIENCE

Full-stack Developer · Protean Studios

05/2025 – Present · Team of 15

Develop **restaurant reservation** and **e-commerce** platforms, owning features end-to-end across the customer storefront, partner dashboard, and back-office.

Tech stack: React, TypeScript, Next.js, Node.js, GraphQL, PostgreSQL, TypeORM, Redis, REST APIs, GitLab

Key contributions:

- Delivered **end-to-end features** with React/Next.js and Node.js/GraphQL in a **TypeScript monorepo** spanning storefront, partner dashboard, and back-office.
- Integrated **Reszaiko** into the reservation flow with JWT authentication, webhooks, **Redis idempotency**, and **two-way inventory sync**.
- Built **partner API access tokens and authorization**, combining JWT validation with permission checks in middleware.
- Standardized shared **business rules** for seasonal pricing, time-range conflicts, and booking availability across frontend and backend.

- Developed a **partner change-approval workflow** (pending state, edit history, admin approve/reject) and **booking modification flows** (plan changes, rescheduling) with inventory re-sync.
- Redesigned the **multi-step checkout** with reusable React components and built a **multi-level SEO landing page system** with Next.js dynamic routing.
- Used **AI coding agents (Claude Code, Cursor)** to speed up development and refactoring; reviewed generated code before merging.

Frontend Developer · Tiah Vietnam

06/2024 – 04/2025

Frontend developer on outsourced projects for **Japanese clients**, building new features and maintaining existing web apps.

• DEV GLOBALB – Kintone + LINE WORKS (WOFF), Japanese client · Team of 5

Built the frontend of a **mobile web app** integrated with **LINE WORKS (WOFF)** and **Kintone**; supported Node.js backend functions and AWS deployment.

Tech stack: JavaScript, jQuery, Kintone, LINE WORKS (WOFF), Node.js

- **SEIKASTUDO – Japanese client · Team of 7**

Product and inventory management web app. Developed new features and improved the **UI** of the existing system; supported Nginx configuration and deployment.

Tech stack: Vue.js, WordPress, PHP

- **ReactJS web applications · Team of 5**

Maintained existing **React** apps: fixed bugs, adjusted UI, updated display logic, and improved data handling.

Tech stack: React, TypeScript

PERSONAL PROJECT

HelpFlow AI – AI-powered customer support SaaS chatbot (LLM + RAG)

A SaaS platform that lets businesses build AI chatbots from their own documents, embed them on their websites, and hand conversations over to human agents in real time when needed.

Tech stack: Next.js, NestJS, TypeScript, PostgreSQL + pgvector, OpenAI API, Socket.IO, Docker

- Integrated an **LLM** to build a **RAG pipeline**: document ingestion, embeddings, vector search, and streamed answers with source citations.
- **Real-time chat** with AI-to-human handoff, handling race conditions and reconnection.
- **Multi-tenant SaaS architecture** with RBAC and JWT.

EDUCATION

Hanoi University of Industry (HaUI)

Major: Software Engineering – Faculty of Information Technology

SKILLS

Programming: TypeScript, JavaScript, SQL

Frontend: React, Next.js, Vue.js, HTML5, CSS/SCSS, Tailwind CSS, Redux Toolkit, React Hooks, jQuery

Backend: Node.js, Express, GraphQL, Apollo Server, REST APIs

Databases: PostgreSQL, MySQL, TypeORM, Redis

APIs & Integrations: JWT Authentication, Webhooks, Kintone, LINE WORKS, Third-party API Integration

Tools: Git, GitLab, Postman, Swagger, Docker

Practices: Component Architecture, State Management, Database Migrations, Debugging, Code Review, Refactoring, Agile

English: Able to read technical documentation; basic verbal communication
